do for your organization.*

Alaska Owned and Operated

Medevac Alaska

Remote Solutions

Medevac Alaska offers seamless continuity of care to our clients by providing a single point of contact for all our integrated medical services. When a patient needs a higher level of care, we execute using our system of remote medics, ground transportation, and air ambulances.

Casual Evacuation

Medevac Alaska Remote Medics are certified, trained, and experienced in moving non-critical patients in Non-Air Ambulance aircraft.

Avoiding The Unnecessary Recordable

Thoughtful Care

Medevac Alaska personnel treat patients thoughtfully based upon medical needs.

Cost Effective

When Medevac Alaska Remote Medics are required to medevac the sick or injured, use internal assets allowing forecastable costs to the client.

One Solution

National Registry Paramedics, Mobile Intensive Care Paramedics, EMT III's, and Registered Nurses Trained and Ready.
